

52nd Annual Edward W. Hook, Jr. MD

Recent Advances in Clinical Medicine

October 22-24, 2025

Omni Hotel, Charlottesville
and Virtually

The 52nd Edward W. Hook, Jr., MD Recent Advances in Clinical Medicine conference is a multidisciplinary, interprofessional, continuing education conference designed to provide primary care clinicians with the knowledge and skills needed to practice state-of-the-art generalist medicine. Through an eclectic array of presentations by representatives of general internal medicine, internal medicine subspecialties, and selected other specialties, the program will highlight new or emerging conditions or treatments with key “take-home” messages, as well

as provide updates in the diagnosis and/or management of well-recognized conditions. The educational design of the program will encompass formal presentations, question & answer panels and meet-the-professor sessions, which allow close interaction with content experts. **The entire conference, will be available in both live and virtual (Zoom) format, and recordings of all main session talks will be available to course registrants after the conference. The electronic syllabus including all main session talks will be available to all course registrants during and after the course until December 25, 2025.**
